CANADIENS COME HOME NEXT WEEK

Members of Canadien Hockey Team, World's Champions at Professional Hockey

Reading, left to right—S. Cleghorn, S. Mantha, Joe Malone, Aurel Joliat, Manager Leo Dandurand, Howie Morens, Ed. Duford (trainer), W. Boucher, W. Coutts, Odie Cleghorn, George Vezina. The above picture was taken in front of the Grimsby Arena last November by Murdoch, the Grimsby Photographer.

World's Champions Will Be Accompanied by "Newsy" Lalonde and the Saskatoon Sheiks—Both Teams Will Practice At Local Ice Palace—Will Play a Game on Wednesday Night—Arena Will be Open for Skating on Thursday Night.

"Well, Bugs," as Artie Clark, the Nottawasaga Flash says, "the smallest town in the world with an artificial ice rink, is going to have a great and colossal collection of professional hockey players in its midst next week—thanks; yes, double thanks to the one and only Leo Dandurand, who has done more to put professional hockey in the select list of sports than any other man in Canada."

On Monday morning next, at precisely 8.54 (and the C.N.R. is always on time now), there will arrive in "the Florida of Canada" as Sprague Ch. home calls this district—not only the dapper, to Dandurand and his crew of world's champion Grimsby Canadiens, but also the great and only "Newsy" Lalonde and his famous Saskatoon Sheiks—the most formidable contented as that the Calgary Tigers champions of the Western Canada league had last season. "Newsy" and his fighting bunch of puck chasers are coming to Grimsby for early season training at the invitation of Mr. Dandurand, who is a Grimsbyite in every sense of the word—except that he did not have a vote on Oct. 23rd.

"Leo," who is one of the two only really and truly French-Canadian residents that Grimsby ever had, is coming back to the Peach Town to train his wonderful aggregation of Canadiens for the third time, because, as he says: "Grimsby has brought me success and I appreciate it; I appreciate the manner in which the people of Grimsby have treated myself and my boys, so here I am."

As a result of this appreciation, Mr. Dandurand is also bringing to our fair district next week, "Newsy" Lalonde and his team of Saskatoon players, who are in the east for practice purposes, to our town, and the both teams will practice in the "rink de impossible" for two weeks, commencing on Monday morning. Another player to "Jimmy" Farrell and "Sammy" Rouham, despite the wall of the rink.

Manager George Hoshal, of the Arena, tells The Independent that the practices of the Canadiens and Sheiks will be held behind closed doors and not even the closest friends of Mr. Dandurand or himself will be allowed inside.

This is good dope and both teams will benefit much from it. Mr. Hoshal also spills another big bucketful of dope when he asks us to tell the great unwashed public that on Wednesday, November 19th, these two great teams of professional hockey players will play an exhibition game in the Grimsby Arena. This will be the first time since the opening of the Arena that a professional game has been played, and we believe that it will be the first time in the history of the world that a professional game has been played in a town as small as Grimsby. This game has been arranged through the generosity of Mr. Dandurand, in order to assist the Arena.

This game promises to be a whizzer as both teams have a lot of young raw material on their rosters and as they have a hard struggle ahead of them in their respective leagues they wish to know just what is what as regards to the men who will draw salaries all through the cold winter months. This game also will be the first of a series of four barnstorming games throughout Ontario in the cities of N. W. Falls, Stratford, London and Hamilton, with the teams making Grimsby their headquarters and playing out of here.

While the Arena will be in operation for the "pro" boys and the use of the Peach Kings on Monday, the general public will not be allowed inside the doors until Wednesday night.

On Thursday night the rink will be open for public skating and further announcements of skating nights will be made by Manager Hoshal in next week's Independent.

While in town, both teams will make their headquarters at The Village Inn, where mine host Servais is already busy making special preparations to hand'e them in his usual first class style, as well as looking after the comfort of his regular guests. The Inn, outfit all told, will number in the neighborhood of thirty.

BOYS HAVE WILD TIME AT JORDAN

It Is Alleged That Seventy Young Men Carried Out High Jinks on Halloween Night—Tore Down a Building

121 Catherine Street

An unusual Halloween party was celebrated at 121 Catherine Street, Grimsby, on the evening of October 31. It is alleged that a party of at least seventy young men, all attired in Halloween costumes and masks, participated in the destruction and five have been arrested on charges of doing malicious damage. Those charged are: Harvey Wills, Morgan Wills, Clifford McInch, Arnold Neathervote and Orville Housberger.

The story was unfolded in the trial of Clifford McInch, it being decided to hear the evidence in each case separately. The witnesses were all excluded from court and the spectators were also excluded in this order, the latter due to laughter which broke out at the opening of the case. The spectators included a large number of the residents of Jordan who had come to the city just to hear the case.

Mrs. Housberger first broke down on the stand but later told of the happenings on the evening of October 31. Early in the evening her yard had been showered with stones, apples, etc., but the real damage did not start until about 10 o'clock when a crowd of young men, whom she thought had just come from a party in the hall, surrounded her barn and began tearing off the weatherboards, doors, etc. They even secured an old straw mattress from the barn and set it afire just outside.

In her statements she fails to connect McInch with any of the damage, but admitted that he had been instrumental in squelching the fire that had been lighted in front of the barn.

The case was adjourned until Friday next. According to Provincial Constable Joseph Nelson, the events of the evening included things a rope around the waist of Mrs. Housberger and dragging her through a field. She sustained numerous scratches and bruises. Mrs. Housberger, not being able to identify any of those who participated in this outrage, it is not probable that the occurrence will be mentioned in connection with this case.

In cross examination by M.A. Seymour, solicitor for the defendants, it was brought out that the roof of the barn had fallen in two years ago. Mrs. Housberger asked that she had been instructed to take the barn down as it was a menace, and she had declared that it had been standing for 22 years. She stated it was used for storage purposes.

LECTURE HAS TO BE CANCELLED

On page 2 of this issue of The Independent appeared an advertisement of a lecture by J. Z. Gration in Moore's theatre. This half of the paper had gone to press before word was received that Mr. Gration had been taken ill and the lecture had been cancelled for that date.

TOWNSHIP ROAD WORK OF YEAR

Much Work Done—Some Splendid Grades—Superintendent W. B. Ross Accompanied Councilors On Tour of Inspection—Members Pleased

Superintendent W. B. Ross, accompanied by Councilors Fred A. Gales and W. H. Vandenberg, and Road Superintendent W. B. Ross, accompanied by The Independent made a tour of inspection of the township roads on Monday last, Nov. 10.

They started in the automobiles of Deputy Reeve Stewart and Councilor Gales, but Gales had two punctures on the thirty township and the rest of the party continued the trip in the Stewart machine.

Baker road—This road has been ditched, graded and gravelled, and a big cement culvert put in about 150 yards from the highway.

Central avenue—Has been given a coat of gravel at the west end and clenders from the C. N. R. at the east end.

Lake avenue—This is the new road that has been built from Park road through to the Clinton town line, and has received a coat of clenders on the west end. It is quite easy to tell where the Grimsby section of the road ends and the Clinton section begins—Grimsby has a real road. The east end was done this year and has been ditched and graded.

The next two roads visited were on the thirty township; one running between Lots M and L and the other between L-O and K-P in the East Gore east from the thirty road. Both of these roads are clay but they have been ditched and graded to a width of twenty-two feet, and are in the very best of shape. It being very noticeable where the North Grimsby line ends.

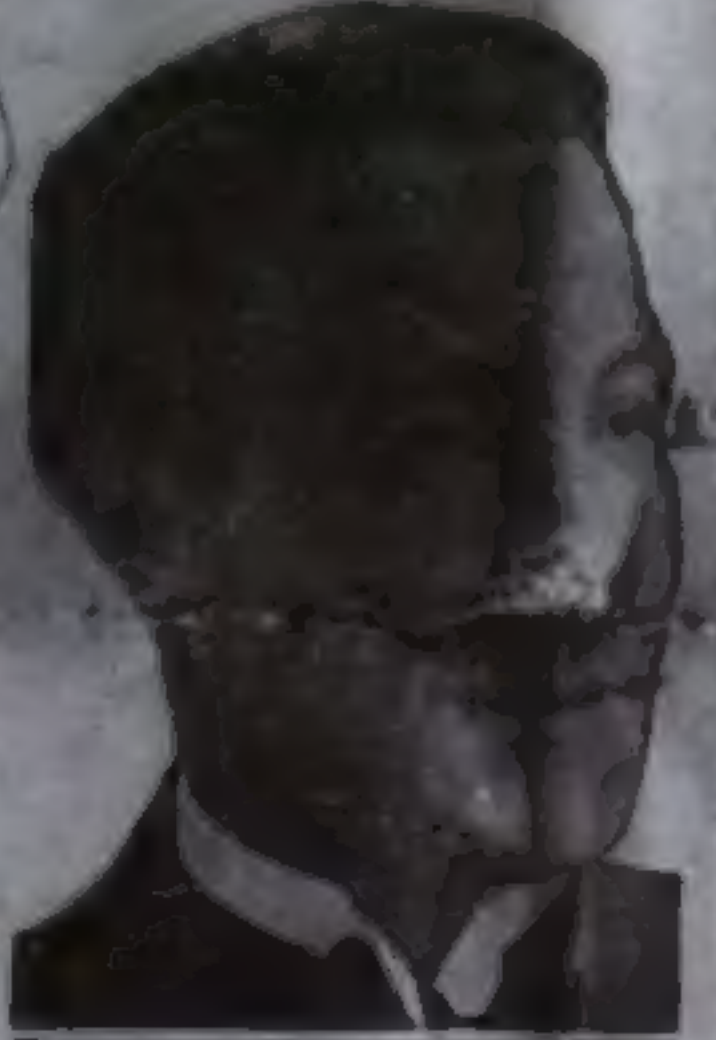

Thirty road—This road was started on the South Grimsby line last year and on the south end some gravel was placed this year, making an exceptionally good road.

Near the town line a new cement bridge has been built over the famed Knapin drain, and there will be no need of another for ages to come.

West of the thirty road, on the line between Concessions 5 and 6 the road was fixed last year, and it too, is in the best of condition. The county road running north and south between Lots Two and Three (Park mountain road) is not in as good shape as any of these.

The road west from Lot Three between Concessions Four and Five was stoned some years ago before the road was graded, but now it has been graded and a coat of gravel added which makes an excellent highway. Several cement culverts have also been put in.

FREIGHT WRECK AT C.N.R. STATION

A peculiar wreck occurred in the Canadian National railway yards at Grimsby on Sunday last, Nov. 9, about eleven o'clock, when manifest freight train No. 153, westbound, had twelve cars derailed by a broken flange on the wheel of a car loaded with newspaper consigned to Chicago.

The break occurred about 225 feet from the east end of the north switch, and when the last four derailed cars came to the switch-point they mounted the rails and remained upright on the rails. The six preceding cars were piled across the westbound main line. The eastbound main line was open, and crossovers at each end of the yards permitted through traffic with no delays. The depot street crossing was blocked with graded cars, but just west of the crossing the train broke in two, the front portion sliding on about 250 feet.

At the side of the switch the water main pipe was demolished, but the cut-off was not damaged though the trucks of one of the derailed cars landed in the pit.

A third peculiarity was the heading of the outside rails of the switch into a bow at least thirty feet from the line, the rails holding together by fish plates. The auxiliary train and crew from Hamilton responded quickly, and in an almost incredible short time had all the cars reloaded so that they could be shipped to their destinations.

TOWN COUNCIL

A special meeting of the town council was held on Thursday evening, Nov. 4, when the tax affairs for 1925 were discussed. It was decided to request H. B. Glover, the auditor who over the books some weeks ago to a meeting and explain some discrepancies appearing in the balance sheet of the town.

The lectures in Modern Astronomy to be given at the Village Inn by J. R. Gibbs will commence on Tuesday, November 18th at 8.30 p.m. These ten lectures are for the amateur student and anyone interested in the fascinating study of the stars. Person tickets \$2.00; student tickets \$1.00; single admission 50c.

ROYAL BANK BUDGET BOOK

Published With the Idea of Assisting Anyone in Keeping Account of Money Received and Money Spent—Useful Tables

Here is something that should be in every household. It is a book, the Royal Bank Budget Book, which is a handy guide to the management of money.

The Royal Bank has issued a book, "The Royal Bank Budget Book," which is a handy guide to the management of money. It is a book of forty-eight pages—four pages for each month of the year—devoted to accounts received; savings; paid for insurance; paid on house; paid for food; paid for clothing; routine; rent; taxes, etc.; doctors, drugs, etc.; sundries; advancement; entertaining; church; charities; and a monthly summary of all. Ahead of these pages there are four pages devoted to instructions and suggestions, and following the twelve monthly allotments there are two pages for a summary to make the income tax analysis easy. Then follow other pages for the entry of general statistics, and five pages for memoranda. The excellent part of the book will play is that it will show the books in the family budget, and offers an index to make an attempt to save. The book is dedicated to the person who says: "I am not extravagant, I save as much as others yet I never seem to have any money saved on hand." And the book is intended to be helpful in answering the problem.

While the Arena will be in operation for the "pro" boys and the use of the Peach Kings on Monday, the general public will not be allowed inside the doors until Wednesday night. On Thursday night the rink will be open for public skating and further announcements of skating nights will be made by Manager Hoshal in next week's Independent.

While in town, both teams will make their headquarters at The Village Inn, where mine host Servais is already busy making special preparations to hand'e them in his usual first class style, as well as looking after the comfort of his regular guests. The Inn, outfit all told, will number in the neighborhood of thirty.

FACTS AND FANCIES BY FRANK FAIRBORN

U. S. Elections—

I told you so! Coolidge won in a walk. He had only ten million majority.

LaFollette polled over four million votes—he wasn't entitled to 400 votes.

LaFollette has done more harm to the United States and the world in the last ten years than any other public man in existence.

The pernicious stand of LaFollette in regards to the war and afterwards against the League of Nations did incalculable injury to the prestige of the United States and the peace of the world.

The English Landslide—

It doesn't take them long to do things in blooming old "Hingland". One government is out and another government is in while you would snap your fingers.

Now that Stanley Baldwin is premier again he will likely give Canada a measure of preference in the British markets. Baldwin has the right idea on empire trade, but the free trade bug has such a hold in Great Britain that it is difficult to get an empire wide preferential trade policy established.

Now that the Republicans have received a new lease of life in the United States, Canada will not receive any tariff favors. It is therefore all the more necessary to seek a preference for Canadian products in British markets.

Leading Leaders—

Premier Ferguson, speaking at a banquet in Toronto, said in reference to the O.T.A., that it was the duty of a leader to lead.

Quite so! But Premier Hearst led on the O.T.A.—but where did he lead to?

Premier Drury led on the O.T.A.—but where did he lead to?

Premier Ferguson is now leading on the O.T.A.—but where will he lead to?

Unripe Fruit—

As I wrote in these columns about the fool practice of shipping fruit from ten days to two weeks before it is ripe. I now want to mention two or three special cases that came under my own personal observation during the season.

I was selling my own fruit on the Highway in Jordan. I wanted to buy a few peaches, and I went to a very reputable grower and secured two of three baskets, picked in the usual way for shipping—I found they were too hard to offer for sale, so I held them. Each day I sorted them over and selected the few that were ready to use and I continued this process for ten days before I placed the last of them on sale.

Strange to say, none of them rotted or wilted, but gradually improved in color and got soft enough to eat—and more strange to say, the last ones that I sold on days after they were picked, were sufficiently firm to stand shipment in nearby points.

Now just imagine a housewife in Toronto, or Ottawa, buying these peaches the day after they were shipped, expecting to use them either for table use or for canning—she would simply have been disgusted as she could not have used one per cent of them the day she bought them and could not have used 25 per cent of them within five days after she bought them.

But had those peaches been left on the trees 75 days longer, the housewife would have been delighted with them as she could have used fifty per cent of them as soon as she received them and the balance of them within a few days.

Another case—I bought twenty baskets of plums from a good grower. He said he had left them on the trees longer than usual so he wanted to sell them on

the highway. They were highly colored and looked fine.

I took them to my stand and treated them as I had done the peaches—sorting out a few each day and offering them for sale. Two weeks after they had been picked I sold the last of them in fine condition, and strange to say, I didn't lose half a dozen plums by it.

Now, although these plums were well colored and looked fine the day I bought them, there was not twenty plums in the twenty baskets that a housewife could have used the day I bought them.

And listen to this: Growers of this same variety of plums all around the neighborhood where I got them, had picked and sold their plums fully one week before the plums I got were picked. What must the housewives have thought of the plums which they got from that neighborhood?

If any one is sufficiently interested to inquire, I will tell them the names of the men from whom I bought these two lots of fruit and they will admit at once that they are both No. 1 growers.

And I will say further that I bought fruit from several growers all the way from Grimsby to Jordan this year and I never got one basket of fruit fit for immediate use, except from one man—Dr. Wolfenden, Thirty Mountain.

I bought quite a lot of peaches from him and they were all ready for use within three or four days, and yet firm enough to carry to any point in Ontario or Quebec.

The fruit growers have gone crazy on the point of picking firm fruit at the solicitation of the dealers who rush the season on every variety at least a week ahead of the fruit being ripe.

The dealers have nothing at stake—some of them haven't even a penny invested yet by their fool practice of shipping green fruit—they are ruining the growers who have millions invested.

SOMETHING FOR NOTHING (Toronto Saturday Night)

Did you ever notice how long and earnestly people work to acquire something for which they give no return, either in kind or labor. At the Canadian National Exhibition everyone goes to get a thousand of people who make it a business to gather in samples of one sort or another. Anything and everything that comes their way is fair game. It matters not that most of it is of no earthly use to the collectors, who after earning the mass carefully for a whole afternoon or evening, eventually pitch most if not all of the collection into the home garbage can. But it is something for nothing and that seems to make it worth while.

Long queues of people were seen standing patiently awaiting their turn to be presented with a tiny bottle of scent. That it may have taken a half hour to get from the bottom of the line to the top mattered not, just so long as eventually they got something for nothing. Of course in order to get into the proper frame of mind to become an active collector at an exhibition one must figure his or her time as worth nothing. If it is worth anything then the practical course would be to go and buy the article, whatever it may happen to be, in the regular way, thus not only saving time but eliminating weariness.

There are a lot of people who take this mania into the world of business. Something for nothing has a strong appeal among those who are not versed in the ways of finance and business. They are the ones who bite at the promises of hundreds of per cent profit per annum. They are the ones who bark to the piffle, put out by Texas oil swindlers, or lured to the high pressure salesmen who care not what they sell so long as they get their twenty-five or fifty per cent commission. It is upon those who are in a something for nothing frame of mind that these hawk prey.

Of course in time most people who start in with the illusion that something really worth while can be obtained for nothing learn better. But the lesson is a hard one and the road to caution is often drenched with tears and paved with regrets.

A LITTLE TALK ON THRIFT (By S. W. Strass, President American Society for Thrift)

The mere act of saving money can not be banished as the only standard of thrift. Not every one who saves money is thrifty in the truest sense. The principles of thrift may manifest themselves in ways other than the piling up of funds in a savings bank. For example, there are thousands of Americans whose savings go directly into payments on homes.

However, the development of the country's savings accounts is an excellent barometer of the popular development of thrift practices. It is gratifying to note, therefore, a constant growth in the savings accounts, amount of savings deposits, and percentage of savings.

According to figures compiled by the Savings Bank Division of the American Bankers Association, the 1924 savings bank deposits are in excess of \$20,700,000,000, a gain over 1923 of \$2,300,000,000. Only as far back as 1912 our savings bank deposits were \$5,250,000,000. The per capita of savings was then \$55. Today it is more than \$100.

For the past ten years savings have grown steadily, but at no time has the yearly increase been as great as the current figures show.

While the average American is earning more money today than ten years ago, and his saved dollar does not represent the value of the dollar saved in previous years, we cannot get away from the fact that the great mass of the people of this country are constantly learning their lessons in thrift.

Many forms of extravagance are being indulged in. There is waste on every hand. One does not need to look far to find inefficiency.

But, taken in its entirety, the national economic condition in the United States are proving steadily better. Besides the growth of savings bank and school bank deposits, we have increased investment in legitimate securities, gains in building and loan association membership, a tremendous increase in home ownership, and a host of other equally desirable indices.

This is the result of direct and indirect educational work which has intensively been in progress in the last decade.

It is encouraging and significant to note these developments. They mean more happiness for the people; greater advancement for the nation.

Steward—"I thought I'd just bring you a little something to eat up here on deck, and save you trouble."

Passenger—"Thanks, Stewart, just save me a little more trouble and throw it over the rail."

The following is from a notice posted outside a church in England: "On Saturday night, at 8 p.m., the annual potato-ole supper will be held, and on Sunday morning the subject of the sermon will be 'A Night of Horror'."

There's no wonder some will wonder. A bunch is just the triumph of matter over mind.

:: The Once Over ::

By H. I. PHILIPS

COME OVER AND PLAY GOLF SOME NIGHT

Home, Sweet Home has been struck another body blow. Night golf on an entirely lighted course has been established as possible. Hereafter when a golf widow's husband stays out all night the first suspicion will be that he was playing in a dark to down golf tournament.

From now on a golf course may be judged not so much for its greens as for its lighting system.

"Ever play Cranium Hills?" one golfer will ask another.

"No, but I'd like to."

"Come over some night and try it."

"Is it a profit fair course?"

"Marvelous! We've just had the illuminating plant entirely overhauled at a cost of \$15,000!"

"How big is the course?"

"Seven hundred."

"Holen?"

"No; are lights?"

"Are there any hazards?"

"Yes, there's a dark corner on the sixth and two broken bulbs on the eleventh. Then there's a short circuit on the fourteenth green that gives a player a lot of trouble if he doesn't carry matches."

"Is it well trapped?"

"One of the best men in the business supervised the trapping."

"Who was he?"

"Eddie Ketchum."

"Is he an authority on golf?"

"No, but he's an expert on lighting."

"What's considered a good score there?"

"Well, I played it last Saturday night in 17."

"Strikes?"

"No; matches."

"What happens when you drive a

half into the darkness?"

"A player is allowed to take a penalty of two strokes and put a new ball in play under the nearest electric light."

"Who's the club champion now?"

"Kimer Griega. He plays a wonderful game of night golf. Never loses a ball."

"What makes him so good?"

"He used to be a night watchman in a moth ball factory."

"How are your caddies?"

"Fine. Every one of 'em is a licensed electrician."

"I'd like to have you play my club the Daffodil, some night, too."

"I hear it's in bad condition."

"It was in bad condition but it's great now."

"Is that so?"

"Yes; we've had the course entirely rewired!"

MINING WEALTH BARELY TAPPED

Now the rocks of Northern Ontario hide treasures to be dug out by the enterprise of man, how 50 per cent. of the potential mining wealth of Ontario has not yet been developed, how the history of a billion years could be traced in the romantic story of the rocks—these were some of the things that Prof. H. E. T. Hamilton told his audience while lecturing "Ontario's Golden North."

The primary schools of Ontario must face the children to the north instead of to the south," he said. Sudbury district provided 50 per cent. of the world's nickel, and there was enough to provide for many generations yet. The Cobalt silver fields were the greatest on earth, and in Porcupine and in Kirkland Lake the province had the most phenomenal gold producing district. He predicted that in a few months Hamilton would be the world's most productive gold mine.

At a reception to Sir Henry Thornton in Hamilton on Wednesday, Oct. 23, the Hon. James Lyons, minister of Lands and Forests, gave an address on the resources of Canada, and in referring to the mineral wealth said:

"Canada will shortly be the largest producer of gold and silver in the world. Our rich fisheries also play an important part in Canada's development. The forests of this Dominion are the third largest in wealth in the world. Last year we produced 2,500,000,000 feet of lumber. We have in Canada the largest coal areas in the world but we must await legislation to bring that coal."

Turning to the provincial aspect, Hon. Mr. Lyons spoke of Ontario's railway, the T. & N. O. This railroad has been the direct means of opening up the greatest mineral wealth the world has known. According to figures recently compiled by A. C. Batesman, secretary of the Ontario Mining association, he estimates that the mineral production of Northern Ontario during 1921 will be \$75,000,000. He estimates that \$22,000,000 of this amount will be used for wages, about \$10,000,000 for dividends, while about \$40,000,000 will be spent in purchasing supplies and equipment. The spending annually of these huge sums by the Ontario mines shows how the mining industry is contributing to our national prosperity.

AUCTION SALE DATES

FRIDAY, NOVEMBER 15th—On this date I will sell by public auction the household furniture and miscellaneous articles on the property of Mrs. Isabella Stewart, one half-mile north of the Highway at Fruitland. Terms—Cash. Sale at one o'clock. Jas. A. Livingston, auctioneer.

Have You Appendicitis And Don't Know It?

Much so-called stomach trouble is really chronic appendicitis. This can often be relieved by simple glycerine, bismuth, etc., as mixed in Adierka. Most medicines act only on the lower bowels but Adierka acts on BOTH upper and lower bowels, and removes all gases and poisons. Brings out matter you never thought was in your system. Excellent for obstinate constipation. Keith J. Farrell, Grimsby and Grimsby East.

The Measure of Your Income

DEALING chiefly with other people's money, men give unlimited time and effort to the wise administration of business, while attention to their own affairs is often casual, and sometimes even careless.

You sell your time, efforts and abilities, from which a profit is due you. Your "overhead" is the cost of living and your savings alone represents your profit.

Our booklet, "The Measure of Your Income," and our Budget Book will help you to increase your personal profits. Ask for a copy.

GOOD FOOD AND GOOD HEALTH

Chronic disease is in many cases the result of faulty foods. Certain parts of the alimentary canal become affected and set up fermentation or produce poisonous toxins within the body. This was the subject of a lecture delivered in Montreal recently by Dr. George Fisk, who explained that all the different kinds of cells, whether of bone, muscle or brain, had to be fed if the house of life was to be built perfectly. It was not a question of the quantity of food, but of the nourishing qualities.

Scientists, of recent years, had awakened to the fact that there was a further factor, besides the five classes of foods—proteins, carbohydrates,

fats, mineral salts, and water. The discovery of vitamins had given a new light on the question of diet. The life-giving vitamins had not yet been isolated, but it was known they were present in all natural foods, while they are destroyed by heat, exposure to air, or prolonged freezing. Three distinct kinds of vitamins are now known, and others are under discussion. They exist in green vegetables, fruit and some grain germs, in butter and cream, in fresh grape fruit, oranges, and lemon juice.

Lack of Vitamins

Pictures were thrown on the screen, showing animals and human beings suffering from rickets, paralysis, of the muscles, aphthous, defective teeth, pellagra, beri-beri, and other diseases, due to lack of the right vitamins in the food supply. There might be a state of chronic sub-normal supply of vitamins, not

enough to produce actual disease, but causing loss of vitality, and, eventually, old age. If this goes on long enough, serious illness may supervene, because the under-nourished cells have not the power of resistance against invading germs.

Certain chronic diseases, among these arterio-sclerosis, tuberculosis, cancer, and rheumatism, Dr. Fisk asserted, are caused by faulty foods. Scientists had been groping for years for the cause of cancer, and it was realized that it is due to some chronic irritation. Lowered resistance in the cells of the body made it possible for cancer to take hold. Even when an early growth was removed, if the system were not strengthened to resist it might go into some other part of the body. Cancer was a multiplication of badly nourished cells, the tissues multiplying in nature's effort to reduce the damage.

Suggested Foods

Dr. Fisk gave a number of practical suggestions in regard to choice of foods. White flour bread, which, he said, constitutes a third of the total food of many of the poorer classes is not nourishing. The "beautiful white loaf" is a starvation loaf. Corn meal and graham flour and whole wheat bread are far more nourishing. Polished rice has lost its vitamins. Vegetables should be served raw, as salads, or lightly cooked, and the water not thrown away but used in soups. Grapefruit or oranges makes a good beginning for the day. Seafood contains iodine necessary to the thyroid glands. Plenty of water should be taken daily, because it acts as a carrier to bring the food to the body cells and also to carry the debris away again. Before going to bed at night, instead of eating a "snack," drink a pint or so of hot—not too hot—water, with a little salt added, to clear out the digestive system for the next day, Dr. Fisk advised.

MANY PITFALLS IN COOKERY

Simple Devices When Promptly Adopted Save the Day for the Cook. There are few of us who, as we wait for long or short, from time to time, cannot "trip" over kitchen problems. Mistakes will happen. It is all very well when everything works like a well-oiled machine, but the truly valuable person is the one who shows herself successful in emergencies.

Suppose it is Cream of Tomato Soup. It is a capital of a soup. You are annoyed, pressed for time, or cannot duplicate the ingredients. Prevention is better than cure, but the curdled soup is not necessarily ruined. Strain it through a fine sieve and add a cupful of milk or water—half and half. If you like, bring to boiling point. Have ready a paste of a tablespoonful of cornstarch mixed with two tablespoonfuls of cold milk or water. This quantity is sufficient for a pint of soup. Stir this into the boiling soup. To avoid having the soup curdle, cook the tomatoes, onion, etc., together and strain. Add a quarter of a teaspoonful of baking soda, and then the prepared white sauce. No further cooking should be done. It is the moment or two of boiling after the liquids have been blended that causes the curdling.

About Cakes. They usually fail because ordinary precautions are not taken. Beat the eggs, butter and sugar well, in order to introduce air into the mixture. The more air the lighter the cake. Never beat after adding the flour; the heavy mixture forces the air out again. If told to cream the butter and sugar, beat them until they are soft and white, or the cake will be close. If the butter is hard, warm—but do not melt it, and save your time and trouble. Break eggs separately into a tureen or you may chance on a bad one and spoil the whole mixture. If a fruit cake, clean the fruit, but if ground dry it thoroughly; damp fruit means heavy cakes. Fruit cakes are best baked in a tin lined with two layers of greased, waxed paper. Cut rounds in the bottom of tin, and a band to stand two inches above the edge of tin. This lessens risk of burning. In baking a large fruit cake it is advisable to place the tin in another tin upon which is sprinkled salt. It is most satisfying to have to shave any cake because it is burned. Bake large cakes slowly and small ones quickly, or the former will burn before being cooked through and the small ones will dry and harden. If the oven door is opened, a sudden jar will often cause fruit to sink, or the cake to fall in the centre. Test cakes by pushing a clean, warmed skewer through the centre. It should be equally clean on withdrawal.

The Boiled Fudge. Do you find difficulty in making it creamy and soft without being sticky? Add a little oil to the candy? A cup of water, half a cup of water in the case of proportion. Dissolve the sugar in hot water before boiling. Let the syrup simmer until it drops heavily from a fork, leaving long threads behind it. Now beat two egg whites to a stiff froth. Pour over them the boiling syrup, beating all the time. When it is light and shiny, place the bowl in a pan of hot water and allow it to cook for a moment or two, still stirring. When the spoon begins to grate slightly on the bottom of the bowl, the fudge is ready to spread on the cake.

Not Biscuits. Why do they sometimes fail? Probably because you dissolved the baking powder or soda in the milk, instead of sifting it with flour and salt. To get the best results use a quarter teaspoonful of soda and a level teaspoonful of baking powder to two cups of flour, one cup of sour milk and half a cup of shortening. The soda is used to neutralize the lactic acid in the milk, and the baking powder to make the biscuits light and fluffy.

Every cook meets with an occasional disaster in her preparation of a meal. Each little difficulty has its own antidote, some of which are given here, in conclusion of an article begun in last week's issue. For instance:—

Meringue, for decorating purposes, have you ever found that it shrinks and eats like leather? That is doubtless because you put it on to the hot plate or pudding, or you did not beat the egg whites until they were stiff. The dish to be decorated should be cold before the meringue is put on. When it should be placed in a cool oven for about ten minutes to dry out.

Fruit Salads—When using bananas or apples they have become black or

MURINE NIGHT & MORNING KEEP YOUR EYES CLEAN, CLEAR AND HEALTHY

LESLIE J. FARRELL, The Great Store, GRIMSBY

discolored, spoiling the appearance of the dish. Perhaps you used a steel knife. Always use a silver or plated knife when cutting up fruit. When the pie is heated—You have forgotten it. It looks hopeless. The baked pie is presentable, grate off all the blackened portions and dust off all the crumbs. Brush over with the beaten white of an egg sprinkled with castor sugar and return to the oven until the glaze is set.

Meat, or deep fruit pies in which you find the meat or fruit uncooked—if the pastry is returned to the oven it will be ruined. Carefully remove the crust and re-slice the meat or fruit until tender. Brush the edge of the pie dish with a white of egg and replace the pastry. It is advisable in the case of meat pies, to cook the meat thoroughly before placing in the pie dish. It should be allowed to get cold before the pastry is put over it. Jellies. They sometimes break turning them out—Probably the jelly was not sufficiently set or shaken too roughly. Perhaps the water into which you dipped the mould, to loosen it from the sides, was not hot enough. You little gelatin may have been used or the weather may be very hot.

What are you going to do about it? If wanted at once it may be served in individual glasses or heaped up in a glass and garnished with whipped cream. If not wanted at once, the fault, whatever it happens to be, may be corrected, the jelly re-moulded and returned to the mould to set. It should be remembered that when loosening jellies from the mould be careful turning out, that earthenware moulds take twice as long to dip as aluminium. Speaking of whipped cream. If at any time the unexpected guest should arrive and you find you have not enough, add the stiffly beaten white of an egg. It will add greatly to your quantity and has the advantage of being just as palatable while not so indigestible.

The Cornstarch of Chocolate Mould. It sometimes shrinks and cracks across it. That is because the mixture is too stiff. It should be thin enough to flow smoothly into the mould—not to form ridges.

The Milk Pudding—it is burned

and unrepresentable. Remove the burned skin and empty the mixture into a clean dish. Add a little more milk and a little sugar if it is too stiff and return to the oven until a new, slightly browned skin has formed. In regard to tapioca puddings, the tapioca often sinks to the bottom of the dish. To avoid this, stir the pudding occasionally for the first half hour, or the mixture may be heated and allowed to thicken over the stove before putting it into the oven. This method saves gas.

In all cooking mishaps prevention is better than cure. While perhaps nine out of ten experienced cooks can get along without a cook book, it is as well not to depend too much upon one's memory or ingenuity. Experts have discovered certain reasons for the proportions ingredients should be blended in. It therefore saves time and disappointment to follow in the footsteps of the wise. It is safe to say that the more carefully the directions are followed, the more successful the results.

Certainly that are nothing more than a ruffle across the top of the window over roller blind look well and in no way interfere with the usefulness of the kitchen window. Made of gay cretonne they add an attractive bit of color to the room. Checkered gingham is suitable, or unbleached muslin with a colored binding.

If a hot dish or plate has marked your table, moisten a little salt with olive oil, and work it into the spot. Leave for some time, wipe off, and polish the table.

TALKING HONEY

(No. 6)

The little "pound" squares (they seldom weigh a pound) of comb honey that you buy in the stores are produced quite differently from the liquid honey that comes in cans and glass jars. Both, however, are made by the bees in the same cleanly, healthful way.

In comb honey the little square wood frames that surround the honey comb are made from beehive wood and a thin sheet of pure beeswax, impregnated with the exact size and shape of the center of the honeycomb is fastened inside the frame. These empty frames or sections, as they are called, are then placed, 24 in a box or paper and set on top of a strong colony of bees, a second story as it were, for the bees to finish and fill. The bees dislike to work in these small sections, and only do so when there is a great deal of nectar being secreted in the blossoms, and when there are many bees in the hive. Hence comb honey is more difficult for the beekeeper to produce, and costs more per pound, also, than extracted or strained honey.

Choice comb honey is at the very acme of daintiness, clean, healthful sweets. It has never been successfully imitated nor adulterated. The quantity produced each season is limited, and very often the price is below the actual cost of production, though it seems high to the consumer. Many beekeepers are giving up the production of comb honey entirely, because of its uncertainty and the greater possibility of failure. Honey should never be stored in a cold, damp place. Comb honey, especially, should be kept where it is warm and dry. A dust-tight box in the kitchen or pantry is the best place for it.

THE FASHIONABLE BUTTON

"A knob to fasten the parts of a dress." That is how the word button is defined in the dictionary. But that is neither its meaning nor its function in the world of fashion.

It might more correctly be defined as a decorative dress ornament. Buttons, large or small, plain and fancy, are used in their thousands on the new models. They outline various designs, border seams, are placed in rows straight down the back or straight up the front of coat-fronts, they are arranged from elbow to shoulder or from wrist to elbow on sleeves, and also appear in all kinds of unexpected places.

It's What Is New

For instance, on a charming gown of black crepe de chine, printed in soft colors, a row of bone buttons was inserted down the middle of a two-pleat which reached from the waist to the hem in the centre back of the skirt.

Although the buttons are usually decoratively they are not as a rule very ornamental in themselves. Often they are covered with the same material as the dress they adorn, or else they are of bone or composition in a coloring which tones.

Discreet Buttons

At one time a button was never seen on a dress or coat without an accompanying buttonhole. Today buttonholes are not wanted—they just don't exist—and the button, changed in character but equally effective in purpose, holds undisturbed away as an ornamental, instead of a utilitarian, dress trimming.

You can make a good left-over dish by combining a cupful of minced meat with about the same amount of cold boiled rice and three well beaten eggs. Cook like an omelet or bake it in the oven.

Corn meal, graham and coarse wheat meal not only offer a pleasant variety for breakfast foods, but they are cheap and healthful.

HEALTH is too valuable an asset to be considered lightly. It is very essential, if you are to take a leading part in business, to get the greatest pleasure out of life. Abundant health depends upon steady nerves—nerves untroubled by poisons often unknowingly taken daily into the system.

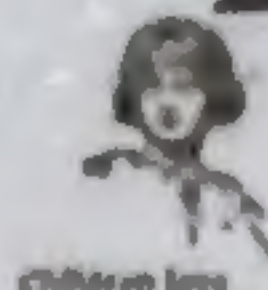

These poisons are Caffeine and Tannin—in tea and coffee. They are detrimental to the whole nervous system—frequently cause restless sleep, excitability, indigestion and other troubles which affect health.

Keep friends with health through Instant Postum, the hot, full-bodied drink which is friendly to all. Delightful and wholesome at any time, it is made instantly in the cup with boiling water. Economical—costs half-a-cent a cup. Ask for it at your restaurant, your club and on the train. For those who prefer it, there is Postum Cereal, made by boiling for twenty minutes. Take advantage of Carrie Blanchard's offer. Send the coupon.

Canadian Postum Cereal Co., Limited
Head Office: 45 Front St. East, Toronto
Factory: Windsor, Ontario

"There's a Reason"

INSTANT POSTUM

You know how many children do not like the taste of milk. You know how they like to have the same drink as the "grown-ups." You know, too, how good it is for them to have a hot drink!

Make Instant Postum for them, using hot milk instead of boiling water! They'll like the taste immediately! And they will get the food elements of wheat, plus the nourishment of milk, in a hot drink that is economical and so easy to make!

Despair from Eczema

To your face or body disfigured by Eczema, are you suffering the itching torment of Eczema?

Here is a remedy—a new, quick, safe, permanent one—postum, you will find it in the bottle. The formula is simple and easy to use. You will recognize the letters "P. O. S. T. U. M." on the box and the letters "P. O. S. T. U. M." on the bottle. To have the skin cleared of Eczema, have the eruptions disappear, and have the skin clear, healthy, and beautiful, use this simple, safe, and permanent remedy. It is a wonder, it is a miracle, and it is a cure.

Write to Dr. D. D. D., 1000 Main St., Toronto, Ont. for your supply. Dr. D. D. D. is the only one who can cure Eczema.

LESLIE J. FARRELL, GRIMSBY

"THE HOME OF QUALITY GROCERIES"

Economy In Coffee

Nearly all of us try to economize, but we often lack the information necessary to enable us to choose best values and at the same time avoid extravagance. Low prices in coffee are particularly deceiving. The comparative strength of different blends is little known to consumers, and they rarely compare flavors or aromas.

Experience and exhaustive tests prove the best coffee to be the most economical and we call your attention to "Excel-sior" Blend, because it will make more cups of better quality than any other coffee.

Use "Excel-sior" and enjoy the double satisfaction to be derived from drinking the best coffee on a money-saving basis.

Local Items of Interest

Town council meet tonight.

Send in your news items.

Christmas will soon be here.

The Beamsville Methodist church Ladies Aid is preparing for the annual bazaar and tea on Thursday, Dec. 1.

M. and Mrs. E. W. Ribbald spent a few days visiting friends in Oakville, and also at Port Credit and Clarkson.

The Ladies Association of the Beamsville Presbyterian church will hold its annual sale of work and cafeteria tea on Friday, Nov. 23.

Lots of people never cast their bread upon the waters unless there is a reporter around to make a note of it.

A Thanksgiving chicken supper and concert will be given in the thirty mountain Union church on Thursday, Nov. 12th, at 7 o'clock, under the auspices of the Ladies Aid.

An afternoon tea in aid of St. Albans church, Beamsville, is being held this afternoon at the home of Mrs. W. Andrews, Lakelanda. There will be a musical program.

Grimsby Arena opens for the season on Wednesday night next with a pro hockey game between the Canadians and Saskatoon. Thursday night will be the first skating night.

A by-law providing for nominations being received on Dec. 23, and the municipal election on Jan. 1 in the township of Halftree received its first reading at a meeting of that council at its last meeting.

The High School Literary society held its elections on Friday night last. The following officers were elected for the year: Harold Whewell, president; J. H. Hansen, first vice-president; M. Michener, second vice-president; D. Allan, treasurer. After a program of musical numbers, dancing completed the evening.

Residents of Fruitland claim that a fiery cross was seen on Wednesday evening on the mountain brow east of the village. The hairy atmosphere prevented the people from having a clear view, but they are of the opinion that the cross was about the same size as the others which have been seen recently in Honey Creek and Winoosa districts.

The Guild, this year, will have a Home-made Cooking Table at their bazaar in the Parish Hall, Thursday, November 28. They will have for sale, home-made bread, ham, doughnuts, pies, cakes, butter, also all kinds of vegetables, cooked meats and chicken salad, canned fruit and pickles. Remember the date and place—Thursday, November 28 at the Parish Hall.

The annual Armistice Masquerade dance at The Deer Park Golf and Country Club on Friday evening last was a huge success. There was a very large crowd in attendance and the costumes were many and beautiful. Miss Mills of Hamilton and Miss Phyllis Roberts were awarded the ladies prizes while Thelma Woodruff and Harold Woolverton won the gentlemen prizes. A dainty lunch was served at eleven o'clock. Norton Orchestra provided the music.

A new Canadian Pacific railway time table has been issued dated Nov. 1. According to this schedule, trains leave Hamilton for Toronto at 6:40, 7:15, 8:35, 10:35 a.m.; 12:35, 4:25, 7:25, 8:10, 10:30 a.m. Leave Hamilton for Niagara Falls and Buffalo at 6:40, 7:15, 8:35, 10:35 a.m.; 12:35, 4:25, 7:25, 8:10, 10:30 a.m. Leave Toronto for Hamilton at 7:45, 8:35, 11:15 a.m.; 1:00, 2:15, 5:00, 7:00, 7:45, 11:15 p.m. "a" means daily except Sunday; "m" means daily except Saturday; all others are daily.

The inmates of the Lincoln county Industrial Home received a highly appreciated surprise on Thanksgiving Day in the form of candies for ladies and smoking tobacco for the men. Each of the women received a box of candy and the men each a half pound tin of tobacco. The gifts, accompanied by suitable Thanksgiving cards, were sent by the Hamilton Hindu Kosh Grotto, which has nearly 100 St. Charles members. The old folks will long remember the kindness of the Grotto in making the day more merry.

A very large congregation turned out on Sunday morning at St. Andrews church. A memorial service was held for those who sacrificed their lives in the Great War. Rev. J. Allan Hallard, rector of the church, had charge of the service, and before starting his sermon extended a hearty welcome to the veterans and expressed his pleasure at having them join the congregation on an occasion of this kind. His sermon was made up on the words, "Love your neighbor and love your God." Arthurs were rendered by the choir, with H. Baillie as soloist.

Major R. H. Kidd, secretary of the Grimsby Hockey Club wishes to state that there is no connection between the dance being held next week in the Village Inn, by the Ladies Hockey Club, and the one to be held the following week by The Grimsby Hockey Club. It is the intention of The Grimsby Hockey Club to hold a dance in the Inn the week of November 24th, in honor of the Canadians and Saskatoon Blackhawks, the exact date of which will be announced in a couple of days. This dance Major Kidd claims will be the biggest one ever held in Grimsby as many special attractions will be part of the evening's entertainment.

Phyllis McNeill of Toronto spent the week-end with her parents.

Mr. and Mrs. A. J. Ochenden spent Thanksgiving week-end in Woodstock.

Owing to Monday being a holiday and the great rush of late advertisements that came into the office on Tuesday, many good articles are crowded out of this issue.

Organ Recital

TOWNSHIP ROAD WORK

(Continued from Page One)

years ago and in its splendid shape with the work that has been done this year.

From the Ridge road south through Lots Three and Four on the line between Concessions Twenty and Twenty-one, the road was graded last year and is in the best of shape. Here side trip was made to look at some ditching that was required.

From the Westerton mountain road east on the line between Concessions Four and Five the road has been ditched and graded, and the approaches to the Port Creek bridge levelled up in proper shape.

In the fourth Concession between Lots Twelve and Thirteen is a bridge over the Port Creek which had in the past such low approaches that the creek would run over the road at both ends of the bridge. This has been remedied, but though it is a forty-foot bridge the council received a communication from a legal firm that it adjacent lands were flooded as a result of the council running the water under the bridge, the council would be held liable for damages.

On the line between Concessions Three and Four (Kilm Tree road) through Lots Nine, Ten, Eleven and Twelve the road was widened this year to great advantage, and a number of trees on the west corner of Twelve have been cut out giving the sun a chance at the road. East of the Port bridge on the south side of this road several rods of the have been put in and a very deep ditch filled up.

From the Kilm Tree road north to the Ridge road between Lots Ten and Eleven a horrible road has been made into a good one by proper grading.

Kerman avenue from Livingston avenue to Lake street has been given a coat of modern putting it into A1 condition, and Lake avenue has been resurfaced from Kerman to the Oakton road, the gravel having been obtained from the beach at the new pier erected by the township on the W. E. Smith property.

The Oakton road from Lake to the lake shore has been ditched and graded; this being the only sidewalk in the west end that goes to the lake shore.

Both the old and new Cline mountain roads have been ditched and travelled to the foot of the hill, and

the old road running from one to the other has been graded.
All of the council members present were very pleased with the work Superintendent Russ has done, and pointed out a few more places that need attention if the weather permits the work to be done this year.

WEDNESDAY—TODAY
A quiet autumn wedding took place at the Presbyterian manse, Beamsville, on Tuesday afternoon, November 11th, when Kathleen Agnes, only daughter of Rev. William and Mrs. Cooper, was united in marriage to Albert Clarence McArthur, son of Mr. and Mrs. A. J. McArthur, all of Beamsville. Owing to illness, the bride's father was unable to officiate, and Rev. G. R. Scott of Fawcett performed the ceremony.

The bride, who was unattended, was charmingly attired in a French headed gown of brownorgette and carried mauve chrysanthemums. The living room was beautifully decorated with yellow and brown chrysanthemums, the library with marigolds and the dining room with mauve chrysanthemums.

After a buffet luncheon Mr. and Mrs. McArthur left by motor on a honeymoon tour, the bride travelling in a brown marvellous suit with ditch collar and toque to match—Kypress.

RAN BIG STREET CAR; GIRL HURT

On Tuesday morning at the 4.30 P. M. G. & H. westbound car was taking on passengers at the Grimsby station, and Saunders of Bramford, a traveller for the Ontario Piano and Music company of St. Catharines, driving a Gray Dart auto, ran into Miss Margaret Hughes, daughter of R. H. and Mrs. Hughes, Main street west. The impact was sufficient to bend the standard and break the glass in the left headlight of the car, and the girl was dragged about fifteen feet, the wheel running over her leg.
E. A. Murdoch, who had just alighted from the trolley car, picked her up and carried her into Dr. Buck's office, and after medical attention she was able to be driven to her home by Saunders.
A charge of driving past a standing street car was laid and Saunders was fined \$5.00 and costs.

IN MEMORIAM
GRANT—In loving memory of Jennie, wife of William Grant, who died Nov. 9th, 1923, and of Archie, who died Nov. 7th, 1922.

They never quite leave us those who have passed
From the shadows of earth to the sunlight above,
A thousand sweet memories are holding them fast
To the homes that they blessed with their presence and love.

CITY LIONS VISIT GRIMSBY

A very successful meeting for the formation of a Lions Club was held in connection with a dinner at the Village Inn on Tuesday evening, November 10th when a large number of members of the Hamilton and St. Catharines clubs were in attendance to explain the object and principles of Lionism.

Percy H. Brooks of Hamilton occupied the chair. The dinner was enjoyable and was interspersed with Lions songs and songs by the visitors, the St. Catharines contingent being especially loud in their cheers for pie and yet more pie.

Among those present were W. J. Reynolds, H. M. Hite, A. J. Bell, H. E. Johnston, the Rev. A. H. Hewitt, R. J. Magnus, J. R. Carlisle, J. E. Smith, A. W. Horton, F. H. Avery, H. L. Cummings, Col. Frank McCordick, of St. Catharines; T. A. Blanchard, P. H. Brooks, A. Oram, Ross Clement, W. Shih, C. Price, W. Armstrong, H. Wastall, F. Prack, Harry Kent, E. Langer, A. Kewinger, Alf. Sullivan, Dr. Woodhall, Dr. McEwen, W. J. McEwen, of Hamilton; Arthur Brookwell, Chicago; Vernon Tuck, E. V. Hoffman, J. H. Culp, C. M. Bonham, R. H. Kidd, J. A. M. Livingston, Dr. L. L. Buck, C. D. Wells, A. Boulter, R. W. Bryden, J. S. Jackson, Jas. A. Livingston, N. Serravallo, A. M. Millward, C. P. Brown, Albert E. Moss, J. Orion Livingston of Grimsby.

Fred H. Avery the district representative the first speaker, in the course of his remarks said that "Lionism was more necessary than anything that had preceded it." That Lionism gave a service similar to the knights of old—a service that cannot be compassed by a few. There has always been worthy causes for this kind of service in every age, and in Lionism we are able to accomplish things that other forces do not cover. There was no one man big enough to accomplish what Lions clubs can. Co-operation of men was necessary, and the Lions clubs were organized to co-operate and give service, to state and community. Men who were asked to join the Lions had been investigated and thought over by the organizers, and those chosen who will be compassionate and work in harmony of any creed or any politics. After Lions clubs got going people wondered how the community had ever got along without them before.

Lions have justified their existence by their rapid growth. The willingness to help is inherent in all men; the Lions bring it out, and co-operation makes it easy. It was hard to explain to an outsider just what Lionism means; the periods of pleasure in the club were built means to an end—service. The speaker told of a Labor Day activities of the St. Catharines club when the members started out to raise money to assist a tuberculosis sanatorium, and had raised \$2,200, and on the last holiday had raised through booths and games at a day of sports \$10,000 for charitable purposes. Mr. Avery in closing mentioned that some objected to the Lions as the headquarters were in the United States, but such was the good fellowship feeling among Lions that at the last annual convention at Omaha, where there were 2000 delegates from all over the States, they had seen fit to elect a Canadian as president of the organization.

The Rev. Arthur Hewitt gave four lucid reasons why he enjoyed being a Lion. The Lions code of ethics was read to every new member with the admonition to live up to that code; another reason was co-operation. The world was getting smaller and the only hope of a peaceful world was co-operation. The spirit bred by Lionism was the spirit to contend with the great problems Canada will be called upon to face.

The child welfare feature of the Lions clubs appealed very strongly to him. He spoke of the big convention at Omaha where one little blind boy had read by the Braille system the letter from another blind boy thanking the Lions for the education they had given and the care they had taken of him. Anyone coming into the Lions with any selfish motive was making a mistake; the keynote of the clubs and of Lionism was Service. The fourth reason was that Lionism was on a rising tide, and all wanted to get in on a good thing.

Jas. A. Livingston, mayor of Grimsby, welcomed the Lions to Grimsby, and in his remarks brought out a point that appealed strongly to visitors and local men—the welding together with the help of the Lions, the many nationalities of Canada's population. From what he had heard from the district representative as and become convinced that the Lions were the body pre-eminent to perform this work. And as for a philanthropic part he cited several of the bigger men who had done great work in Canada, but here again the Lions constituted the means to an end that individual work would never reach.

Arthur Brookwell the International Representative explained Lionism and gave statistics showing the enormous good the organization was doing. In his address he said:

"A Lions club is established by the business and professional men who have been selected, agreeing to form themselves into an association for the purpose of bringing together the spiritual and progressive men from the various lines represented in the town, for their mutual advancement and their combined influence may be exerted and utilized for the welfare and uplifting of their town and community and for the benefit of society at large, recognizing that there is no influence so great as community, more potent or powerful in the accomplishment of good than the of the business and professional men unselfishly banded together for the purpose of promoting the general

We Are Ready to Outfit You With Skates, Shoes and Other Accessories, for the Opening of The Arena on Thursday Night, Nov. 20th.

Skating on C.C.M. Chrome Nickel Steel Is Exhilarating

As one enthusiastic skater said: "Skating on C. C. M. Automobile Skates is just like flying. You glide along with hardly an effort."

Much of this exhilarating difference is the result of the steel used.

C. C. M. Automobile Skates are made of Special Chrome Nickel Steel as used in the costliest motor cars and the finest edge tools.

This steel takes a hard, keen, knife-like edge that grips the ice so you get full power out of every stroke. And it glides along the ice with marvelous ease and swiftness.

While hard as glass on the outside C. C. M. Skates are not brittle. The legendary C. C. M. heat-treatment leaves an interior "core" of tough steel, that makes C. C. M. Skates practically unbreakable.

You've maybe skated on your old skates a long time now. Why not put on a pair of C. C. M. Skates and enjoy the thrill of skating on Special Chrome Nickel Steel?

Models and sizes to fit ladies, men, girls and boys.

welfare of the entire membership.

"The further purpose of this association is to unite its members in the closest basis of good fellowship and to promote a close business and social union among them; to encourage active participation in all things that have to do with commercial, civic and industrial betterment; to uphold the principles of good government; to assist, in every honorable way, in furthering the interests of its members and toward bringing about a better understanding among men; to teach that organization, co-operation and reciprocity are better than rivalry, strife and destructive competition; to encourage the application of the highest ethical standards in business and work; by the exchange of methods and ideas, to increase efficiency in all lines represented."

"It will also be the purpose of this association to take part in any meritorious movement which, in the judgment of its members, will be for the general good and it may offer its co-operation (when advisable) to other organizations engaged in laudable endeavors for the public welfare."

To show the great and extensive work being carried on Mr. Brookwell quoted the following statistics:

Clubs engaged in or supporting activities relating to moral development—Encouragement of Boys and Girls Clubs, such as, Boy Scouts, Camp Fire Girls, Big Brotherhood, Junior Lions, et al; establishment of Juvenile Courts, probation officers and social workers for delinquents; care of orphan and neglected children, 194.

Clubs engaged in or supporting activities in Child Welfare or Boy Work relating to physical development—Children's playgrounds, crippled children welfare, clinics for babies, Braille System for blind, furnishing milk funds, care of pre-tubercular or tubercular, fresh air activities, sending boys to farms, camps, picnics, outings, promotion of games and sports, promotion of entertainment, lectures, etc., 201.

Clubs engaged in or supporting activities relating to mental development—Educational programs through the Schools, Scholarships and other aids, institutional care for subnormal children, social centers, and aiding vocational guidance and placement, etc., 22.

Clubs engaged in or supporting activities relating to civic advancement—City parks, support of Building Loan Association, better roads, tree planting, development of parks, safety railway crossings, trade carnival, promotion of water works, assisting Chamber of Commerce, supporting libraries, public swimming, pools and skating rinks, public school facilities, County Fairs, street markets and welcome signs, increasing traffic police, etc., 420.

Clubs engaged in fund raising activities—Supporting County and School nurses, milk funds, donations, Red Cross, Christmas cheer, Community welfare, Community chests, Tuberculosis Clinics, equipping gymnasiums, furnishing beds in hospitals, Japanese Relief Fund, Hospital for disabled soldiers, funds for Boys, Boy Scouts buildings, etc., 262.

Clubs engaged in patriotic activities—Building memorials, parades, celebrations, Americanization and Naturalization work, organization of Boy Scouts troops, promotion of patriotic songs, etc., 74.

Several of the Grimsby men spoke and all were of the opinion that a Lions Club was a good in Grimsby, and expressed opinions that if other men and women could do as they had done there was no reason why Grimsby could not do it. A. M. most invariably they received hearty support, and a Lions Club for Grimsby is practically assured.

NOTICE

JUDICIAL SALE IN THE SUPREME COURT OF ONTARIO

Rey E. Beard, Liquidator of Goring & Feghery Limited (Plaintiff), and Harriet Edith Beatty and Arthur C. Goring (Defendants).

PURSUANT to the judgment made in this cause, dated the 22nd day of October, 1924, and in the direction of His Honor Alexander D. Hardy, Master of the Supreme Court at Brantford, there will be offered for sale by public auction, by James A. Livingston, Esquire, at the office of the Grimsby Independent newspaper, in the Town of Grimsby, on Saturday the 15th day of November, 1924, at the hour of three o'clock in the afternoon A.L. and B.L. and C.L. that certain parcel of land and premises situate lying and being part of Lot number twenty-one in the second and third concessions in the Township of North Grimsby in the County of Lincoln in the Province of Ontario, and more particularly described as follows: Commencing on the easterly line of the road commonly known as the Cline Mountain Road distant eleven hundred and forty-two feet and two inches; thence south seven degrees and thirty minutes east four hundred and twenty-eight feet and two inches; thence north sixteen degrees and thirty-three minutes east five hundred and six feet and seven inches; in a stake; thence north sixteen degrees and thirty-six minutes west four hundred and forty-six feet and six inches more or less to the place of beginning, containing by advertisement five acres.

Further particulars as to the property offered for sale and the terms and conditions of sale may be obtained at any time prior to the sale from Henderson and Bocky, 114 Balmora Street, Brantford, Ontario, or from G. B. Macdonald, Esquire, Grimsby, Ontario. The conditions of sale will be read at the time of sale.

Dated at Brantford this 17th day of October, 1924.

A. D. HARDY, Local Master at Brantford.

Do they answer your questions?

The young people, in their letters from school, seldom tell you what you really want to know.

But how often when you call them by Long Distance! Jack says he is all over his cold. Mary is no longer homesick and is perfectly happy.

The load is lifted from your mind. And how the absent ones do enjoy hearing the familiar voice!

No matter how gloomy the weather, a talk with the young people by Long Distance will always bring sunshine into their day as well as yours.

Look up in your Telephone Book the lower rates for Station-to-station calls after 8.30 p.m.

MANY ATTEND DEANERY MEET

About one hundred and seventy-five delegates, representing all parishes within the Westworth deanery, attended the annual meeting of the women's Auxiliary of the Church of England, held in Winona on Thursday. Briefly, the program provided for the celebration of Holy Communion and service of St. John's church in the morning, luncheon for the delegates in Winona institute hall, and the business meeting commencing at 1:30 p'clock in the afternoon, when the diocesan president, Mrs. Lanther of Hamilton, presided.

Following the address of welcome, delivered by Rev. H. A. West, general business was transacted. This included roll call of the delegates, reading of the financial report, which proved very encouraging; reception of the various branch reports and selection of a place for next year's meeting, and Tapscott was the meeting choice.

During the afternoon Miss Nina Woolverton of Grimsby, was an interesting speaker on the subject of church and women's auxiliary literature, and Rev. W. H. Gale, a returned missionary from Japan, discussed the work in that country.

Mrs. G. F. Thompson of Hamilton was re-elected for the eighth term as deanery secretary.

Contributions of goods for the mission fields were sufficient for two bales.

Branches represented at the meeting were: Money Creek, Aldershot, Dundas, VanWagner's Beach, Burlington beach, Watford, Bartonville, Ancaster and Winona, the latter having more than twenty-five members in attendance.

Rev. Mr. West occupied the pulpit during the morning service, and he was assisted by Rev. Rural Dean Chittcott and Rev. W. G. O. Thompson.

Members of the local branch are deserving of commendation for the high degree of success which attended the meeting, their program being carried through without interruption.

FLOWING MATCH

The fifty-third annual plowing match of the Grimsby Plowing society was held on Wednesday, Nov. 5, on the farm of Wm. Smyre, near Vine-mount, and was a success though some of the classes were not as well filled as in some former years. The prize winners were:

Special Long Plow—C. Parker, J. Young, E. Corman; beginning—C. Parker; finish—C. Parker.

Special Jointer—S. Tweedie, K. Young, O. Tweedie, J. Johnson; beginning—Ira Tweedie; finish—Ira Tweedie.

First jointer class—R. Young, Jan. D. Stewart; beginning—R. Young; finish—R. Young.

Second jointer class—P. Stewart; beginning—F. Stewart.

Boys, under 15—Lorne Marshall, R. Hays; beginning—L. Marshall; finish—L. Marshall.

Single riding plow—H. Hildreth, Jas. Leggett; beginning—H. Hildreth; finish—H. Hildreth.

Two furrow—W. Fletcher; beginning—W. Fletcher.

Tractors—E. Hildreth, K. Milmine, J. Leggett; beginning—E. Hildreth; finish—E. Hildreth.

Sweepstakes—R. Young was successful in winning first claim on silver tea set.

Straightest plowing in field—R. Young.

Best beginning in jointer—R. Young.

Best finish in jointer—S. Tweedie.

Best plow team—H. Hildreth.

Best kept team—Ira Tweedie.

Oldest plowman—E. Corman.

Youngest plowman—H. Hays.

Plowman foot race—J. Young.

Ladies foot race—Bertha Clark.

Has and out—J. Johnson.

Best plowed land being plowed by a I. H. C. tractor—E. Hildreth.

The officers for this year were:—G. M. Southward, president; Joseph Bradt, first vice president; Wm. Bradt, second vice president; Wm. Bradt, secretary; Directors—R. H. Dewar, W. E. Corman, Hugh Bettram, J. D. Stewart, Alvin Corman, E. Alt-house, Harley Merritt, Elmer Hildreth, W. J. Bradt, Hamilton Lee, Jos. Bradt, Geo. Lee, Ira Tweedie, Harvey Hildreth, Alway Watts, Stephen Tweedie, Life members—Senator E. D. Smith, Maj. Armand A. Smith, J. W. Smith, R. H. Dewar, J. B. Pettit, Stephen Tweedie, Hamilton Lee, Edward Corman, Alvin Corman, Geo. Southward.

WHY PATRONIZE THE ITINERANTS?

Again does Brother Westland, of the Beamsville Express, hand out something good that fits Grimsby, and not only every other community.

He says: If it is a traveller or a peddler, no matter what line he represents, turn him down frankly, if you can get what you want in your home town. Just allow a few of these agents to get the idea in their heads that we consider our town ahead of any outside burg, and that we would sooner help the fellow here who is paying his share of the taxes, than some concern in Toronto. This advice applies to the merchants themselves as well as to others.

A very clever lawyer succeeded in winning his client's case and getting the better of a rather bumptious fellow-lawyer. The latter couldn't conceal his chagrin, and, meeting his victorious opponent in the smoke-room of the hotel at which they were both staying he remarked in a loud and spiteful tone: "Sir, in these easy cases, too bad for you to tackle, or any criminal so much dyed in crime that you won't defend?" The other puffed his cigar and replied loud enough for everyone present to hear: "No; what have you been doing now?"

"Owe my life to Carnol," says Mr. Sinclair

Following a railway accident, after other medicines failed, he got relief from two bottles of Carnol.

The train after needs no comment from us. We leave Mr. Sinclair to tell you about his experience in his own words:—"I was very much run down and nervous following a railway accident some years ago. Medicines failed to give me any real help, so I decided to try Carnol. I did not have any faith in a patent medicine, but a friend of mine said Carnol was far superior to any other of the so-called patent medicines. 'Give it a trial,' he said, 'and let me know the results.' I am glad to say this wonderful medicine has done for me what no other medicine has done, and it therefore gives me great pleasure to give this evidence in favor of Carnol. I would advise all business men who feel, after the strenuous life of the world, that they need a building up tonic, to take Carnol. It is only by giving it a fair trial that they will know its splendid qualities. After using the first bottle I noticed a marked improvement. My appetite improved and after the second bottle I could eat like a horse, even raw potatoes and onions would be as welcome as apples. I slept like a log and after a refreshing sleep, I was able to take up the strenuous work of the hustling insurance agent. This work calls for considerable nervous energy in closing business and I can say, with confidence, Carnol has no superior in the medicine line. I would suggest that your company give this letter a most conspicuous place, so that everyone may know what a great medicine is before the public as a restorative tonic and flesh builder. I say, with all confidence, I owe my life to Carnol. Nothing equals this medicine."—Jordan M. Sinclair, Chatham, N.B.

1-24

SEVENTY YEARS IN SALT FLEET

John Penfold, son, of Tapscott, was 71 years old yesterday, Tuesday, Nov. 11, and is one of the earliest settlers of this district. He came to Saltfleet township 70 years ago from England.

Despite his advanced years, Mr. Penfold is enjoying the best of health, and he can remember incidents which occurred over 60 years ago. It seems almost unbelievable, in these modern times, that the ship he crossed over in was a month and twelve days in making the trip to New York.

At that time there was no railway running into the city of New York. Albany was the terminus, so Mr. Penfold sailed up the Hudson to that town to get a train for Canada. When he arrived at Niagara Falls he was compelled to walk across the bridge, because at that time the "iron horse" did not cross.

He settled in Money Creek and after parting with his last shilling got work with a farmer on the mountain with a magnificent yearly salary of \$25. After a year on the farm he became his own master, and three years later married the youngest daughter of the late James Lee, mountain top who died in 1864.

Of his family of nine, the eldest son, Stephen, and the eldest daughter, Catharine, have died. Those living are: Joseph and John, of Penfold Bros., feed store, Hamilton; Enoch, also of this city; James, on the old homestead at Tapscott; Arvey of Grimsby; Arthur of Strathroy, and Mrs. James Hildreth of Tapscott.

NEW SCHOOL IS NEARLY READY

Principal Auld of the Grimsby High School reported at the monthly meeting of the board of education on Thursday night, Nov. 6, that there is now an attendance of 182 at the high school. The enrollment is made up as follows: Form one, 45; form two, 25; form three, 21; form four, 18; form five, 14; commercial, 41. The commercial class, the principal reports, has now reached the seating capacity of the rooms.

It is the intention of the board to open the new building about the end of the month, if arrangements can be made to secure the minister of education at that time. In the meantime the removal of a number of classes from the old to the new building will be made.

Plans were laid out and arrangements made for the purchase of apparatus in order that basketball and softball games may be started as early as possible in the new auditorium. New chemical equipment was placed on order for the agricultural laboratory, to cost around \$2,000.

The Daughters of the Empire asked for permission to hold a social function in the auditorium at the first available date after the opening and their request was granted.

Principal Auld reports an attendance of 215 at the public school, quite a number of pupils there having been granted leave of absence the past month on account of fruit-picking.

"SMILIN' THROUGH"

"Smilin' Through," the great comedy success by Allan Langdon Martin which was originally produced in New York with Jack Cowell and a superlative supporting cast, has been selected as the offering at the Temple Theatre, Hamilton, week of Nov. 17th.

"Smilin' Through" should prove one of the most attractive productions that has ever been staged here and Manager Schuyler is to be congratulated upon his progressiveness in securing so famous a play for presentation locally. It is typical of the progressive spirit that marks all of his efforts at the local playhouse.

After a prologue that is far too unique to be spoiled by being told in advance, starts in the garden of a crusty old man who has as his ward, a delightful wife of an Irish girl with all the charm of the central in "Peg O' My Heart". For years he has bitterly remembered the fact that another man has won the woman whom he loved. Therefore, when he finds that this girl has fallen in love with the son of the man, he is furious and swears that they shall never marry.

Right here comes in the quaintness of the piece. Back through the hazy film of years that have passed comes memory visualized. He lives over again the years he cannot forget and from them learns the lesson that he had never learned before with the result that, when the young man returns, he permits them to be happy and, in so doing, finds happiness himself.

While there is a sweetness and inimitable charm in the story of "Smilin' Through", the skill with which the characters are drawn is probably the most attractive feature of this great play. It is one play in a hundred.

WINONA BUSH FIRE

Fire broke out on Thursday in the bush along the face of the mountain, at the back of Wally Rogers' farm, near Winona. The blaze started in a ravine above the lower flats, and as the ground was covered with dried leaves and old stumps and the fire was fanned by a strong wind, it soon assumed serious proportions. All afternoon and during the early evening a gag of fifty men battled to subdue flames, and they had apparently succeeded during the evening. Four men were left in ward during the night, and early this morning the result was a general call for help was again sent out. At noon the fire appeared to be under control, although smoke was creating some nuisance. The chief concern of the fire fighters was to prevent the fire from reaching neighboring buildings.

QUACK NOT NOW TO BE "CURE"

The Federal Department of Health has issued instructions that the word "cure" shall henceforth not be used in connection with any preparation, whether veterinary patent medicines or medicines in connection with which the complete formula is given.

The new order includes every veterinary preparation in which drugs are used, and the word "cure" must not only be banned from the label, but it must not be blown into the bottle or put on any such articles in any shape or form.
